

Review Game Booster 4x Faster Free

G19 Mobile

Game Booster 4x Faster Pro is a free app that allows you to improve the performance of your mobile when playing games. The program developed by G19 Mobile helps your terminal have a productive, efficient and optimal performance. It also allows you to create your library of games

Mobile games are one of the great events of recent years. The passion that was unleashed in the mid-1980s for arcades, consoles and computers, moved to the small terminals that today are the most important technological device in our lives. The possibilities offered by programs in app forms are endless.

In this way, we have access to all kinds of video games. From recognized and historic franchises to innovative, independent, authentic and original products. You can find the multiplayer or Battle Royale blockbusters or hidden gems that are developed by young talents who become famous and millionaires overnight with an amazing idea. The options are endless. There are **free games**, payment options or mixed type alternatives.

Now, there is a question that constantly arises among gamers of this type of device and that is which is the best mobile to play. The technical requirements vary according to each app, game or proposal but it is clear that the heavier, developed or elaborated the title will require more conditions from your terminal. There are apps to improve the performance of your terminal and today we are going to tell you all about one of the most outstanding that you can get in the virtual stores of **Android and iOS**.

Game Booster 4x Faster Free is an app developed by G19 Mobile. Its main function is to provide you with all kinds of tools to make your mobile phone work in the most optimal and efficient way when using video games. It will also allow you to have your entire library of games in a single program.

Using Game Booster 4x Faster Free will grant you many benefits so that you can experience your favorite games in the best way. The app will automatically enhance everything your terminal needs to function properly. You just press a button and the phone will be in the most optimal mode for the task.

The experience when enjoying your favorite title will be very enriching thanks to the operation of the artificial intelligence of this program. It also applies HDR (High Dynamic Range) technology during your games which significantly improves the graphic quality.

We know that the graphics, effects and designs sections are among the most outstanding details of video games and with Game Booster 4x Faster Free you will be able to control everything that refers to that section. You can apply the resolution of 1080 pixels as well as control the FPS.

Performance is another point that you should control and one way to measure it is to see if the mobile device overheats or not. By installing Game Booster 4x Faster Free you will have control to run the game in the most efficient way and not to overload the performance of the device. It is proven not to overheat in popular systems such as Snapdragon 801, 820 and 821.

You will not only have options to improve performance and graphic quality. The program developed by G19 Mobile will give you the chance to customize everything that has to do with games on your mobile device. You can schedule when you want it to be launched, configure quick starts, apply special colors during games and improve all the settings you think are necessary for proper operation.

You can access the **free version** of Game Booster 4x Faster Free or buy its paid alternative for less than \$ 1 called Game Booster 4x Faster Pro. Both options are among the most valued by players around the world.

The so popular universe of video games expanded with new technologies to mobile phones. This brought new users

and at the same time new needs and demands on the part of the players. G19 Mobile recognized this need and offers with Game Booster 4x Faster Free a great option to make your experience the best.

Many times we believe that our device is not the correct one or is not up to the title we want to play and it is actually a configuration issue that can be fixed very easily.

Take advantage of the large number of options offered by Game Booster 4x Faster Free and make your mobile work in the best way.

Pros	Cons
- Ideal proposal for gamers - Many options - FPS control - Resolution in HDR	- Works better if you use the paid version - Some games do not improve - May delete game data - May overheat some devices
