

Review LINE Manga

LINE

LINE Manga is a manga comics app that has been very successful in Japan and abroad. With a large catalog of free titles, you will be able to find any work you are looking for, it also has a community of users that will help you choose to read with their ratings and comments

Have you heard of **LINE Manga**? Are you interested in the topic? If you are a lover of Japanese drawing, you have to know this utility, because comes from Japan itself to bring you its best titles. We know that the popularity of this type of publication comes from the Asian country, where it is among the most read genres. This is not new news, if we add that Line is a very popular social network among its citizens, their union could only be a success.

Developed by **LINE Corporation**, a very diverse platform responding to trends in the smartphone industry and sharing different discounts and much more. The company published the latest usage data for **LINE Manga** and is undoubtedly one of its most successful applications. It was released in April 2013 and has more than 23 million downloads in Japan alone.

However, it is not only successful in Japan. **LINE Manga** has the potential to prevail in the international market with it and the fierce competition that Japanese manga has at the moment. You just have to link in your **LINE** account to start reading your comics.

It's an easy and fun way to have manga on your phone. You will find it available for **free download** on **Android** and **iOS** devices. With more than 2,900 titles in its catalog, it is no coincidence that this is the most successful format downloaded to phones in the region. There is a wide variety of themes and much of the manga you find in it is colored.

LINE Manga offers its users the facility of simply being able to download the one you want and not having to be online when you want to see it, change devices to browse on a larger screen or simply save it to collect it. Share your favorite comics on the LINE timeline with other users and exchange impressions with them, creating a very active community. To navigate through it is very easy, you just have to choose one and go through pages with just sliding your fingers to "unfold the brochure", you can also enlarge areas to see something in detail and return it to its normal reading size.

It is free, but of course, there are many offers in which for a premium payment you will have at your disposal exclusive sleeves that you will read before the rest. **LINE Manga** also has its own groups according to themes, where you can find other users with the same tastes and hobbies, so if you are a fan of manga or use LINE, why don't you sign up?

LINE Manga includes a patented reader and viewer, and you only need to understand Japanese, because in general, most of the numbers it includes are in that language as they are exclusive products that may not have reached our country. Since these jobs are mostly done in Japanese, they are rarely translated into other languages, even English translation is missing, so don't have an easy way to get it. In this app your reading is totally personalized, read any comment that another user has left under certain comics, mark one of these or a comic page. You can also share on other social networks like Facebook, Twitter or Line.

To make it easier for users to find what they want in **LINE Manga**, the application offers them a search engine that will show everything that exists in its database, in which you will search for works in all genres, which facilitates the

choice of the correct reading. You also have at your disposal the possibility of creating your own favorite lists, it is very easy to mark those that you liked or that you want to read in the future and it is fully customizable, so you can expand or delete it as many times as you want .

With approximately 50 updates per day to its listing, you are in the best place to find a new manga that will become your favorite. But it not only offers reading, you can also take advantage of the different promotional campaigns with which the company likes to pamper its users. In general, the prices are not expensive and there is the opportunity, sometimes, to earn someone else's money, with gifts and interacting with the rest of the community.
