### VIX Inc.

With VIX you will have all the content in Spanish that you can imagine. It has the best series, films, programs and documentaries, in addition to original ones, which adds up to more than 14,000 hours to enjoy and in which you will find its catalog available for free and without viewing limits

If you are looking for an application that allows you to view all audiovisual content for free and totally legal, there are little-known options that contain a large number of advantages that you still do not know about and that offer a very interesting proposal for Spanish-speaking users.

Nowadays the vast majority of people have contracted a streaming television service, these have turned them into a highly valued product that makes the competition that exists fierce. Every day there are new ones and they do not stop appearing, although there are few that have the power and accumulate the majority of users but, among all those that exist, there are some hidden ones that are true gems that must be taken into account, such as the case of **VIX**.

Born in 2015, its main objective is the distribution of social programs in three languages ??and with a very specific, positively curious motto. With more than 88 million users, it is one of the platforms with the largest content in Spanish and Portuguese in the world. Its main programs are mostly aimed at women, health and culture.

In 2019, I bought Pongalo, which is why it distributes its entire catalog of series, films and programs on more than 30 platforms throughout Latin America, increasing its offer and offering more than 14,000 hours of viewing. **Download VIX for free**, you find it available for **Android** and **iOS**.

Its main sustenance is found in advertisements, which appear before or after the projection, but which are short and not very intrusive. To start enjoying it, all you have to do is install it on your mobile device and start using it, it's that easy, you won't need to create any personal account or anything like that.

The first thing you find when you open it will be its main screen where you will find the latest releases and the most popular content on the platform. Its library is divided into different channels, with what you will find in each of the subcategories a specific topic, audience or genre, helping users to find what they want to see without having to navigate through their entire application.

Among the ones you have available you can find Póngalo Movies, VIX Explora, VIX Kids and family, Urban Food, VIX Viaja, Mooviemex and many more, just choose one of them and sit down to enjoy your favorite shows.

With the **VIX** app you will be able to see in blocks the new releases, both of films and international series, documentaries, animation, reality shows, etc. All this in Spanish, although there is always room for content in the original version in your language, in these cases it will appear labeled as Subtitled, so that you do not know what you are seeing.

Most of its content is not released, although you can find a lot relatively recent, the truth is that the programs you will find will have their time, but that they are very famous such as Battlefield Earth, The Last of the Mohicans or the entire Ace Ventura saga, among others. . That does not prevent you from enjoying great successes and other types of original films, series and documentaries that have nothing to envy to major productions.

In its menu you can create your own Favorites lists, so you will have in one place and have quick access and with its

search engine you will find any specific one that you indicate.

In addition to its programming, VIX also has a blog where you will be up to date with all the latest news and news, not only on cinema, in many categories such as science, fashion, pop culture, health and wellness, beauty and others.

**Download VIX**, in a single application you will have everything you need to be informed and watch your favorite series. You can find this by clicking on More VIX, on the new screen that appears are all its most recent entries, as you go down it, more will continue to appear.

Among the most viewed content on VIX are telenovelas that were a success in Latin America, so if you like them, this is your ideal platform. It ranges from romance, to comedy, musical, adventure or horror. Although its catalog is not as extensive as that of others, you can always find a jewel.
