Tilpes Hop: EDM is a music game that will keep you entertained and relaxed for hours at the same time. Get to know this adventure in three dimensions in which you can play with the musical themes of the moment or upload your favorite songs. Drive a ball through platforms suspended in space and get the highest score

One of the best combinations that can be given for you to spend hours and hours of entertainment. There is no doubt that **music games** are among the most attractive that you can download on your mobile. These proposals manage to combine the adrenaline of video games with a passion for music. They are usually fun, challenging but at the same time relaxing deliveries since the musical themes manage to transport you as you play, overcome levels and scores. We are going to analyze one of the latest installments of this type of title that is all the rage among users.

Tiles Hop: EDM is one of the latest games developed by Amanotes. It can be **downloaded for free** for mobiles or tablets that have **Android or iOS**. The free version works with built-in banner ads that can be removed if the paid option is chosen.

Amanotes is one of the largest studios in the **mobile games industry**. Their specialty is music titles and the numbers they display are truly impressive. Among all their products, they have more than one billion downloads, almost one hundred million active users per month and are the number one video game publishing firm in Southeast Asia. Within its outstanding catalog it offers the following deliveries: Magic Twist, Infinity Run, Helix Crush, Bounceez, Dancing Ballz, Splashy Tiles, Hop Ball 3D and Dancing Helix, among others. All with music as the main protagonist.

One of his latest releases is Tiles Hop: EDM. **Downloading Tiles Hop: EDM** will allow you to make a game that combines elements of platform titles with music. You will have to guide a ball through different platforms to the rhythm of your favorite songs without it falling.

Not only do you have available the songs included in the Amanotes app, but you also have the possibility to upload your own favorite songs. There are pieces of all musical genres and played with different instruments. They can be rock, jazz or pop and be performed with piano, guitar or bass.

The gameplay is very simple but not so simple. You must press and hold on your screen to drag the ball so that it falls on the indicated platform. Each hit you make on one of the squares will follow the rhythm of the music that is playing at that moment. If you don't hit the surface at the right time you will lose your life and have to start over.

Among the **advantages of Tiles Hop: EDM** we can also highlight the graphics that the delivery has. The environment that is generated is in three dimensions, giving a futuristic and spatial style. The effects also accompany this style which produces an environment that you will surely enjoy.

You can also change the backgrounds and the balls you play with. There are more than 20 different scenarios available and a wide variety of designs for the balls for you to change the color or print motifs such as hearts, circles or stripes.

You can **play Tiles Hop: EDM** in multiplayer mode and challenge your friends or other users to beat your score. This means that you do not get bored of the game since all the time you will be looking to score more and more points. Not only that, but also by advancing through levels you will get more ball designs as a reward. Not only that, you also have the chance to register with your Facebook account to play on a greater number of devices and challenge more friends and acquaintances.

The songs available in the Amanotes proposal are the best known and most popular of the moment but remember that you will also have the option to upload your favorite songs. You will not get bored for a long time playing this

installment.

Tiles Hop: EDM is one of the best alternatives for music and video game lovers. It is a perfect combination that will help you to enjoy your taste for games and love for songs. The characteristics of the title are very well balanced since it has good game mechanics, excellent graphics and effects, the possibility of playing with friends and the freedom to upload your own songs.

Meet another great proposal from Amanotes and spend hours playing.

Pros	Cons
- Good graphics - You can upload your songs - Good game mechanics - Register with Facebook	- Contains many advertisements - Can become repetitive - Somewhat complex - General performance problems
